COST OF THE CRUISE -The cost of the cruise of the Training-ship Jamestown is given by commander Glass in a communication to the Board of Super-\$2,255. The disbursements during the cruise amounted to \$2,251 70, and are thus itemized: Pay for officeres and men for July, \$841 30; pay for offi ers and men for August, \$880 01; provisions in

Dr. Geo. B. Winship, who was known a few years ago as a travelling Hercules who could lift one side of a focomotive engine and out-pull a horse, died in Boston on Tuesday last at the early age of forty-two, probably a victim to excessive athletism. It is impossible for a man to make enormous expenditures of vitality through his muscles and still have a reasonable quantity kept for his thinking, digestion, and the proper working of his lungs and heart. Men who are exclusively athletes generally die of affections of the heart or hings; they do not live long; longevity is reserved for those who do most of their work in their brains, and exercise only moderately. The muscular man is by no means the strongest; on the contrary, he is often the weakest.

ODD FELLOWSIP .- The report of the Grand Secretary, submitted to the Grand Lodge of Odd Fellows at its recent session in Philadelphia, shows tne Order to be in a prosperous and flourishing condition. It has greatly extended the field of its operations, and new Lodges are instituted in Australasia, several countries in Europe, Chile, Peru, the Sandwch Islands, Turkey, etc. The membership in some of the leading countries is stated as follows: England, 416,120; Scotland, 11.239; Wales, 39,957; Australasia, 36,038. All these are under what is known as the " Manchester Unity," which also has jurisdiction over the Lodges in Buenos Ayres, Gibraltar, Malta, Turkey, the West Indies, Africa, etc. In the United States the membership is stated at 440,916. The total number of members of the Order in the world is given at 968,429, of which 508,015 are under the Manchester Unity, and 460,414 under the Grand Lodge of the United States. The Order has been recently established at Amsterdam, in Holland, under the jurisdiction of the Grand Lodge of the United States.

NOTHING IS SO MUCH TO BE DESIRED AS, PERFECT SIGHT, AND PERFECT sight can only be obtained by using perfect Speciacles. The Combination Speciacles improve, strengthen and preserve the sight, on account of the purity of the material of which they are made. They cause no dizziness or wavering of sight; are brilliant and casy to the eye, and from the construction of the frames are more durable than others. They are set with fine French Periscopic Lenses, with the focus or cone so adjusted as to come directly in front of the pupil of the eye, thereby giving the Best Possible Effect from an artificial help.

The Eyes are tested and fitted with Speciacles by a new system, which has been approved by the leading opticians of the United States, and is the only practical system, based on scientific principles now is use.
